

Wellmark Product Overview

Valves | Safety Relief Valves
Regulators | Level Controllers
Level Switches

Valves

Wellmark's line-up of application-specific valves deliver a unique combination of quality and value unmatched in the industry. Suitable for oil, gas and other liquid services, we maintain an extensive, readily available inventory of flow controls for a variety of systems, including separators, compressors, transmission lines, wellhead controls, and other oil and gas process applications. Simply choose your appropriate size and pressure class.

SERIES W2600
Safety relief valve

SERIES 5555
Back pressure valve

SERIES 2020
Choke valve

Controls

When it comes to your on-site fluid level controls, you demand precision, reliability and value. We keep a complete inventory of high quality, dependable controls that are in stock for use in separators, knockouts, treaters and other applications. Ask your Wellmark rep to help you select the right controls for your system.

ZB PILOT
Pneumatic liquid level control

W1200DVO
Level switch

SERIES 7400
Snaptrol pneumatic liquid level control

SERIES 685S
Hydro head switch

SERIES 6900
Cantilever pneumatic liquid level control

SERIES 1800
Pneumatic & electric liquid level control

SERIES 790
Electric level switch

SERIES 2001 N
Pneumatic liquid level control

Regulators

Wellmark's pressure-reducing regulators are designed for low and high-pressure systems that can be used with natural gas or air. Used in conjunction with pneumatic liquid level controls and valve positioners, these regulators provide constant and reliably controlled pressures. In addition, they can be used for general purpose control of gas or air to other pneumatic instruments. Our regulators are available in a range of sizes and pressure classes.

SERIES W67R
Air-set regulator

W1301 PR
Pressure regulator

2001 PR
Pressure regulator

SERIES 2002 PR
Pressure-reducing regulator

Accessories

Choose Wellmark's wide offering of accessories to ensure high quality and seamless integration. We deliver a complete solution for a variety of on-site applications, including emission control with products like our patented Wellmark No-Bleed MIZER®. In addition, you'll receive the expert service and support you need to operate more efficiently.

Fuel Gas
Shut-off valve

Probe & Plug
Pressure provers
